- Added Staff profiles Staff-Entity-Allow-Write-Access and Staff-Entity-Restrict-Write-Access to match the Profiles in the Production environment.

Installation Guidance:

It is recommended to uninstall all previous versions of the SDK prior to installation of this version.

Settings.env

Create the SDK command:

docker compose -p tsds_ods_sdk_2025_2_1 --env-file ./settings.env up -d

Remove SDK command:

docker compose -p tsds_ods_sdk_2025_2_1 --env-file ./settings.env down -v

All ports have changed to end in '0' as referenced in the settings.env file.
